What do elephants eat

Sarah - 2026-04-30 - [Comentarios \(0\)](#) - [Elefantes](#)

- **Grasses:** A major part of their diet, especially in the wet season.
- **Leaves and twigs:** Rich in vitamins and minerals.
- **Fruits:** Provide sugars and vitamins.
- **Roots and bulbs:** A source of starch and minerals.
- **Tree bark:** Elephants use their tusks to strip bark from trees, which provides calcium and roughage that aids digestion.
